

Dataset Access Request and Agreement Form

Dataset: ***ChildLens - An Egocentric Video Dataset for Activity Analysis in Children*** (hosted at Max Planck Institute for Evolutionary Anthropology, Leipzig, Germany)

1. Applicant Information

Full name:

Institutional affiliation:

Position / Role:

Institutional email address:

Supervisor (if applicable):

Research group or department:

2. Research Project Information

Project title:

Brief description of the intended research use (2–3 sentences):

Expected duration of use:

3. Terms and Conditions of Use

1. 1. The applicant (and/or their supervisor) must hold an affiliation with a university or recognized research institution.
2. The dataset (videos or annotations) will be used exclusively for scientific, non-commercial research purposes.
3. The applicant confirms and agrees that:
 - (a) The videos and annotations will be used only for academic research purposes.
 - (b) The dataset will not be used for commercial purposes of any kind.
 - (c) The dataset will not be used to train commercial machine learning models or networks.
 - (d) The dataset will not be shared, redistributed, or made accessible to third parties.

4. Any publications or presentations resulting from the use of the dataset must include proper citation of the dataset as specified by the dataset maintainers. DOI:
<https://doi.org/10.17617/4.fe>
5. The dataset must be accessed and stored securely, following institutional data protection guidelines.
6. The applicant must use an institutional email address for all correspondence related to this dataset.
7. Violation of these terms will result in the revocation of access, notification to the applicant's institution, and potential legal consequences.

4. Data Access and Contact

The dataset is hosted at the Max Planck Institute for Evolutionary Anthropology (MPI EVA). Access requests are handled by the Research Assistants of the project. Please send the completed form to: ra@eva.mpg.de

5. Applicant Declaration

I confirm that I have read and understood the above terms and agree to comply with them in accessing and using the dataset.
